LUNOS honoured again: Life & Living Award 2025 as the most popular provider in the field of technology – ventilation

Berlin, 03.04.2025 – LUNOS Lüftungstechnik GmbH & Co. KG was once again honoured this year with the renowned Life & Living Award as the most popular provider in the field of technology - ventilation. The award ceremony took place at the Bertelsmann representative office in Berlin, organised by the German Institute for Service Quality (DISQ) and ntv.

The Life & Living Award recognises companies and brands that stand out for their outstanding products and services in the home environment. This year's award is based on a comprehensive consumer survey in which more than 50,000 votes were cast. In the ventilation (specialists) category, LUNOS came top of the rankings with 79.5 points, confirming its first-class rating from the previous year.

LUNOS Lüftungstechnik GmbH & Co. KG, founded in 1959, is a leading global supplier of ventilation technology with an international customer base in the private and commercial sectors. The company focuses in particular on decentralised home ventilation and also offers heat recovery systems, smart home equipment and a wide range of accessories.

LUNOS would like to thank all consumers who cast their votes, as well as the German Institute for Service Quality and ntv for recognising and awarding the company.

Michael Merscher, Technical Director of LUNOS, at the award ceremony
